

Service Programs

Industry Leader

Newton Instrument Company is the leading manufacturer of communication structural components. Newton's products can be found throughout the world in telephone central offices, customer premises and computer rooms. A number of our component designs are patented. We are dedicated to providing quality products and services to our customers every day.

Customer Program Options

Newton provides approximately 5600 different part numbers to the Telecommunications industry annually. Given a usage requirement of certain parts over a time period, Newton can manufacture selective items as Made to Stock (MTS), Made to Forecast (MTF) or Made to Order (MTO). Typically, MTS and MTF parts have a 2-3 day lead time.
